

## **Beverly Public Library Public Internet Use Policy**

The Beverly Public Library provides public access to the internet as part of the library's information services. Library staff is able to provide basic internet instruction. Additional one-on-one instruction is available by appointment. The internet provides access to valuable information resources which may not be available elsewhere. The unique, unregulated nature of the internet requires that users exercise judgment regarding information accessible on various internet sites. The library tries to protect users' privacy but complete privacy on shared computers is not a realistic expectation. The library's wireless network is an open, unsecured public network. The library does not filter access to internet sites but may monitor patron usage. Parents have the responsibility to monitor their children's use of library resources. Some patrons may deem some material unsuitable for viewing by their children. We suggest that parents concerned about access issues become familiar with the library's policy and join their children in using the library's internet services. The Children's Room can provide parents with written materials to help them in guiding their children's internet use. Patrons should be sensitive about viewing or leaving material on the screens which may be upsetting to other patrons, whether on their own laptops or on library PCs. To ensure a safe and secure environment, the library has instituted the following rules:

1. Patrons are prohibited from accessing materials which may be prohibited by state or Federal Law.
2. Patrons may not use the library's internet service for any illegal activity, including use of library computers for hacking and unauthorized copying of copyright-protected material in any format.
3. Patrons are prohibited from accessing blatantly offensive visual or text-based materials which constitute potential sources of sexual harassment to other patrons or library staff.
4. Patrons violating the above rules may have their internet access terminated and/or may be required to leave the library. Library staff are authorized to take prompt and appropriate actions to enforce the Public Internet Use Policy.

This policy has been written in accordance with The Library Bill of Rights and the freedoms guaranteed by the First Amendment. This policy shall be reviewed by the Board of Library Trustees no later than June 2024.

Approved by the Board of Trustees: June 27, 2023
